PROJECTS

Fuzz4All

Orlando, FL

Python, Docker, Flask, JavaScript, HTML/CSS, git

Mar 2024 – Apr 2024

- Designed and developed a Flask web application to display a run's test result and the research results.
- Collaborated with team members to document the changes made to the open-source repo.
- Led weekly team meeting to track our progress over the project duration.

PetPals

Orlando, FL

Next.js, Prisma, TypeScript, Cloudinary, Figma, NodeMailer, Vercel, Next-Auth

Oct 2023 – Dec 2023

- Collaborated with my team to create an application inspired by Tinder for pet owners to connect their pets with other pets.
- Implemented the Figma styling into the application's user interface.
- Developed APIs to implement features such as like and dislike.

College Events

Orlando, FL

HTML/CSS, JavaScript, PHP, MySQL, git

Jan 2023 - May 2023

- Developed a web application that incorporated user authentication and hierarchical role-based access control.
- Designed and implemented features like viewing, creating, and commenting on events.
- Collaborated with my partner to create smooth user experience and outlined the structure of the web application.

PROFESSIONAL EXPERIENCE

Python Basics Co-Director

Jacksonville, FL

CODEFY

Jan 2021 - Aug 2021

- Taught a class with the size of 30-40 students.
- Coordinated and managed a team of mentors, who helped ensure the class session ran smoothly.
- Developed educational materials for the use of teaching during the class session.

SKILL

Leadership

Active Listener

Problem Solving

Teamwork
